## Summary

Aspiring Software Engineer with a strong foundation in programming, data structures, and full-stack development. Experienced in real-world projects and team collaboration. Eager to contribute to impactful solutions.

## Education

<b>Jaypee University Of Engineering And Technology</b>	May 2022 – May 2026
Bachelor of Technology in Computer Science	CGPA: 8.4
<b>Christ Senior Secondary School</b>	2022
Senior Secondary Education (12th)	Percentage: 83%
<b>Christ Senior Secondary School</b>	2020
Secondary Education (10th)	Percentage: 85%

## Experience

<b>Creative Content Writer</b> <i>Writer's Pocket</i>	<i>Remote</i> <i>Sept 2023 – Oct 2023</i>
<ul style="list-style-type: none"><li>Created creative and poetic content for Writer's Pocket's monthly anthology.</li><li>Developed engaging literary pieces, enhancing the artistic appeal of their publication.</li><li>Contributed to thematic storytelling and poetry selection for the anthology.</li></ul>	
<b>Hackathon Finalist: Build-a-thon</b> <i>Saras AI Institute (Completed)</i>	<i>Online</i> <i>November 2024</i>
<ul style="list-style-type: none"><li>Developed a humorous chatbot to solve coding queries using <b>Flowise AI tool</b>.</li><li>Collaborated with a team of four to design an interactive AI-powered solution.</li><li>Implemented a conversational AI model with a focus on engagement and humor.</li></ul>	

## Projects

<b>Crime Data Analysis</b>
<ul style="list-style-type: none"><li>Built a data visualization dashboard to identify <b>crime hotspots</b> and <b>time-based trends</b>.</li><li>Conducted exploratory data analysis (EDA) to extract insights for law enforcement.</li><li>Tools Used: Python, Power BI</li></ul>
<b>Guardian Grid – Crime Safety Web App</b>
<ul style="list-style-type: none"><li>Developed a crime and safety web platform providing <b>real-time crime statistics, safety measures, alerts for crime-prone areas, live location sharing, and online security help</b>.</li><li>Implemented <b>authentication and data-driven insights</b> to enhance safety awareness.</li><li>Tools Used: React.js, Tailwind CSS, FastAPI, Firebase, Geolocation APIs</li></ul>

## Technical Skills

<b>Languages:</b> C++, C, Python, SQL, JavaScript (Basic Java)
<b>Tools and Technologies:</b> Power BI, React.js, Tailwind CSS, MySQL, Git/Github, Python libraries for data analytics
<b>Course Work:</b> Operating System, Database Management, Data structures & algorithms, Software Engineering

## Certifications and Achievements

- Data Science and Analytics - **HP LIFE**
- Build-a-thon - **Saras AI Institute**
- Winner - 30 min instant poetry competition (2023, 2024)
